

# The Female Connection

Making Esbjerg feel 'at home'

The activities of **The Female Connection** aim to open up our unique local nature from a female perspective, so you will feel part of The Wadden Sea, part of Esbjerg and part of a strong embracing community. We aim to make you feel at home in Esbjerg.

In the right surroundings humans are extremely sustainable: Put in nurturing and meaningful relations, humans re-charge themselves whilst using themselves. Nature is proven to prompt a sense of relatedness, fast tracking the sense of belonging. That is why all activities in **The Female Connection** depart from nature. We make Esbjerg **Væredygtig**.
